

Ankara Medipol University is a young and dynamic university established in 2018. The university prioritises educating talented and qualified individuals, whom Turkey and the world need, with a high standard of higher education programmes and opportunities.

As an institution that aims to educate qualified scientists who will produce quality information, Ankara Medipol University believes that the achievements in scientific and technological fields are the most important driving force of the sustainable development and socio-economic development of Turkey and the world.

Medipol Ankara University operates in one of the most magnificent and historical buildings of the capital city of Turkey built in the early Republican period.

The basic values of Ankara Medipol University are environmental awareness, perfectionism, tolerance, freedom, commitment to ethical values, and participation.

Ankara Medipol University has 19 programs in 3 vocational schools, 24 departments in 10 faculties, and 1 master programme. English education is provided in the departments of Dentistry, Pharmacy, Faculty of Medicine, Psychology, International Trade and Finance, Gastronomy and Culinary Arts, and Political Science and International Relations.

Ankara Medipol University library is constantly updating itself with its infrastructure that supports education and research programs, meets the information and document needs of academic staff, students, and other researchers, and closely follows developments in the world. Thanks to its advanced information technology, the library offers access to national and international publications in many fields from health, social sciences, and life sciences to culture, art, and literature.
